Cloud & DevOps: DigitalOcean, DigitalOcean Spaces, AWS, Nginx, PM2, DNS, Docker, Docker Compose, CI/CD Pipeline, SSL/TLS, Server Monitoring

Tools: Git, GitHub, Postman, pgAdmin, VS Code, Firebase

EXPERIENCE

Venturesathi Business Services LLP

Rourkela, Odisha, India

Full Stack Developer

May 2023 – Present

- Architected scalable ERP and SaaS modules for HRMS systems, supporting **600+** daily active users and streamlining attendance, payroll, timesheet, shift management, and operational workflows for **300+** employees.
- Mentored and collaborated with a team of **5+** developers to deliver scalable ERP and SaaS business modules aligned with business objectives, accelerating project delivery by **2 weeks**.
- Collaborated directly with East African stakeholders to gather business requirements and deliver customized ERP solutions, reducing manual operational workload by **78%**.
- Implemented subscription-based billing workflows, integrated PhonePe payment gateway solutions, and developed Google OAuth and third-party API integrations for scalable ERP and SaaS applications, improving transaction success rates by **20%**.
- Built and enhanced centralized authentication and micro-frontend access systems using React.js and Express.js, reducing login-related issues by **30%** and improving user access management across applications.
- Developed core ERP functionalities including master data management, order processing, invoicing, attendance tracking, and inventory management using Sequelize and PostgreSQL.
- Optimized PostgreSQL queries, backend APIs, and frontend rendering performance, reducing data processing time by **20%** while supporting 500+ daily active users.
- Managed deployment and maintenance of frontend, backend, and database services on Google Cloud Platform and DigitalOcean, improving deployment efficiency and production stability.

Easy Solutions

Chennai, India

Front-end Developer

October 2022 – March 2023

- Developed reusable and responsive UI components using React.js, JavaScript, HTML, and CSS for web applications.
- Improved frontend performance and user experience by identifying and resolving rendering and load-time bottlenecks using Chrome Developer Tools.
- Collaborated with development teams during code reviews and implemented frontend best practices to improve code maintainability and reduce technical debt.

PROJECTS

Real-Time Chat Application | *React.js, Node.js, Express.js, PostgreSQL, Socket.IO*

- Developed a full-stack real-time chat application with messaging, friend requests, group chats, file sharing, authentication, and analytics, supporting 100+ concurrent users with React.js and Node.js.
- Implemented authentication and authorization using Express.js and PostgreSQL, following MVC architecture, reducing backend errors by **15%**.

EDUCATION

Institute Of Management And Information Technology

Cuttack, Odisha, India

Master of Computer Application (MCA), Post graduation

Aug. 2019 – Sep 2022

Dhenkanal Autonomous College

Dhenkanal, Odisha, India

Bachelor of Science (BSc), Computer Science honours

July. 2016 – May 2019
