TECHNICAL SKILLS

Front-End Development: HTML, CSS, JavaScript, React.js, Redux, Next.js (Basic), Bootstrap, Material-UI, Responsive Design, Performance Optimization

Back-End Development: Node.js, Express.js (MVC Architecture), REST APIs

Databases: MongoDB, PostgreSQL, SQL, Sequelize ORM

Cloud and DevOps: Digital Ocean, Digital Ocean Spaces (S3-compatible object storage), Cluster

Technologies and Tools: Git, GitHub, Firebase, Socket.IO, VS Code, Postman, pgAdmin, Google Cloud Platform

Languages: Java, JavaScript

EXPERIENCE

Venturesathi Business Services LLP

Rourkela, Odisha, India

Full Stack Developer

May 2023 – Present

- Led client interactions with East African stakeholders to define requirements and delivered an ERP-based system using Node.js and PostgreSQL, reducing manual workload by **90%**.
- Implemented monthly and yearly subscription plans for the core ERP app, integrating third-party payment gateways, improving transaction success rate by **20%**.
- Enhanced the central login system with React and Express.js, reducing user login issues by **30%** and enabling seamless access to micro-frontend apps, increasing user engagement by **25%**.
- Developed and maintained ERP features (master data management, order creation, invoicing) using Node.js and Sequelize, customizing solutions to cut manual processing time by **15%** and boost order accuracy by **20%**, improving client satisfaction.
- Optimized system performance by **30%** with React and PostgreSQL, supporting 500+ daily active users in tracking shifts, attendance, schedules, and real-time inventory, achieving a **25%** increase in engagement and **20%** reduction in data processing time.
- Streamlined deployment of front-end, back-end, and database components on Google Cloud Platform and Digital Ocean, reducing deployment time by **35%** and improving system uptime by **20%** with secure, scalable hosting.

Easy Solutions

Chennai, India

Front-end Developer

October 2022 – March 2023

- Built and maintained reusable UI components with React and JavaScript, improving page load times by **25%** and increasing user satisfaction by **30%** through responsive, user-friendly designs.
- Tested and debugged UI components using Chrome Developer Tools, achieving up to **80%** improvement in load speed, enhancing overall user experience.
- Contributed to code reviews and implemented frontend best practices, improving code quality and maintainability by **30%**, reducing technical debt, and streamlining development workflows.

PROJECTS

Real-Time Chat Application | *React.js, Node.js, Express.js, PostgreSQL, Socket.IO*

- Developed a full-stack real-time chat application with messaging, friend requests, group chats, file sharing, authentication, and analytics, supporting 100+ concurrent users with React.js and Node.js.
- Implemented authentication and authorization using Express.js and PostgreSQL, following MVC architecture, reducing backend errors by **15%**.
- Designed responsive, user-friendly interfaces with CSS and React.js, achieving **100%** device compatibility and enhancing user satisfaction.

EDUCATION

Institute Of Management And Information Technology

Cuttack, Odisha, India

Master of Computer Application (MCA), Post graduation

Aug. 2019 – Sep 2022

Dhenkanal Autonomous College

Dhenkanal, Odisha, India

Bachelor of Science (BSc), Computer Science honours

July. 2016 – May 2019
